

ELECTION DAY RIOT

BLOOD FLOWS IN THE STREETS OF FRANKFORT, KY.

Three Men Dead and Two More Wounded as the Result of an Encounter Between a Deputy Sheriff's posse and an Armed Band of Election Busters—Three Killed in a Election Row at Mount Vernon, Ky.—At Berkeley, Virginia, Democratic Factions Almost Come to Blows—News of Crime in General.

Frankfort, Ky., Nov. 2.—Election day was ushered in by a bloody encounter on the streets between Republicans and Democrats at 1 a. m., resulting in the death of three men and the wounding of two more. The difficulty began by Frank Egbert, Republican, organizing a party to head off a party of Democrats under the leadership of Ben Marshall, who, Egbert claimed, had taken a party of negroes to the country to prevent their voting today. Egbert, it is said, with his party, awaited Marshall's return and fired on him from ambush, wounding him and Smith seriously and slightly injuring Alex Graham, a negro. Deputy Sheriff Deakins then organized a posse and attempted to arrest Egbert and his party. The latter appeared on the street brandishing their revolvers. The two parties met and firing began. Fifty shots or more were fired, and Egbert was mortally killed, while Deakins was mortally wounded. Howard Glore, one of Egbert's men, was also instantly killed, and Walter Gains, a negro, severely hurt. It was reported soon after that he had died. Mayor Julian today organized a large body of special policemen in view of the excitement, as he feared further trouble at the polls owing to the bitter feeling between the workers of the two parties and the friends of the men killed and injured. The merest trifle of a quarrel would have been sufficient to result in a riot to the death.

FRANK EGBERT, Republican politician, of Egbert's crowd. SHERIFF DEAKINS, dying. JOHN SMITH, driver of the Democratic wagon in which the negroes were hauled to the country. Wounded: Charles Graham, colored, occupant of returning wagon.

Walter Gains, white, bystander. There is no confirmation of the rumor that several negroes are dead and concealed about town.

Frankfort, Ky., Nov. 2.—A growing idea that last night's riot was instigated by the prominent politicians now in jail charged with conspiracy, has terribly aroused the country neighbors of the deputy sheriff, who lived in a remote and wild section of the country. A report is current to the effect that men were coming tonight to lynch all seven of the men in jail, on the ground that they loaded Egbert with whisky and incited him to the attack and afterwards to the murder of the deputy sheriff. The governor has been applied to by families of those in jail for troops to protect the jail. Investigation indicates that there is no real danger of a mob, and no soldiers have been ordered out.

TROUBLE AT MT. VERNON. Louisville, Nov. 2.—A special to the Evening Post from Mount Vernon, Ky., says: A number of tough characters created a disturbance at the Crooked Creek precinct in this county this afternoon. Sheriff Mullins attempted to restore order, when a general shooting affray took place between the sheriff and his deputies and the disturbers, three of the latter being killed. The dead are: HENRY LANDFORD, JOHN LAWRENCE, CHARLES PAYNE.

ALMOST A RIOT. Norfolk, Va., Nov. 2.—A riot was almost precipitated in Berkeley this morning. There are two Democratic factions in the county. The Cade faction sided the vote place of the Northern faction on Berkeley avenue but left the books in the charge of the regular clerks, who, after an excited discussion, retired to the mayor's office and opened a new voting place. They left the crowd in possession of the books. Mayor McCoy expected further trouble and requested that one company of Portsmouth militia be held in readiness to await a call from him. This was done, but its services were not needed as the excitement soon quieted. No one was injured or arrested.

A FEUD SETTLED. Louisville, Ky., Nov. 2.—A special from Junction City, Ky., to the Evening Post says: A fatal shooting affray took place here this afternoon in which an old feud was ended and both the participants died within a minute of each other. Some years ago J. O. Wright shot J. C. Blackley while assisting officers to arrest him. The trouble was renewed this afternoon. Wright fired on Blackley, who returned the shot. Both men fell mortally wounded and both died before the smoke of their pistols had disappeared. Blackley was unmarried. Wright leaves a wife and two children.

TO DEFEND LUTHER. St. Louis, Nov. 2.—Ex-Governor Charles F. Johnson, one of the best known criminal lawyers in Missouri, and almost as well known outside the state, has been retained to conduct the defense of Luther, the Chicago sausage maker, in his coming second trial for the alleged killing of his wife. Mr. Johnson has gained great prominence in his connection with the defense of Dr. Duesow, the St. Louis millionaire who was recently hanged for the murder of his wife and child.

It may be trouble to examine your purchase before it is wrapped. Then you can be certain that you get what you ask for, and not a substitute.

Cancer

Mrs. A. H. Crausby, of 158 Kerr St., Memphis, Tenn., paid no attention to a small lump in her breast, but it soon developed into the most malignant type. The best physicians in New York treated her, and finally declared her case hopeless. A last resort, S. S. S., was given, and an immediate improvement resulted; a few bottles cured her completely, and no sign of the disease has returned for ten years.

CATARRH OF THE STOMACH

A Pleasant, Simple, Reliable and Effective Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloated sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs, and difficult breathing, headaches, feeble appetite, nervousness, and a general played-out, languid feeling.

There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surface of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlandson the safest and best treatment is to use after each meal a tablet composed of Diastase, Ascorbic Acid, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Booher of 2719 Dearborn street, Chicago, Ill., writes: "Catarrh is a local condition, resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat, reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of the stomach without cure; but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found peace, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send for little book mailed free on stomach troubles, by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drug stores.

ADDITIONAL LOCAL MATTERS

CITY IN BRIEF.

Miss Stella Thomas is in Kansas City, the guest of her friends.

Mr. Frank Bellow is home from an extended trip to New Mexico.

Mr. Wm. J. Langenfelder of Wellington was a visitor in the city yesterday.

Judge W. C. Little went to Arkansas City yesterday on a short business trip.

Judge H. C. Slus has returned home from an extended business trip to Arizona.

Mrs. C. C. Curtis and daughter of Wellington were in the city yesterday shopping.

Hon. Chester I. Long was in the city yesterday for a few hours enroute home to vote.

Mr. R. E. Torrington went north yesterday morning on a short business trip up the road.

Mr. Quincy A. Glass, one of Winfield's prominent druggists, was at the Carey yesterday.

Mr. M. C. Campbell will leave this morning on a short business trip to Norman, O. T.

Mr. Herman Yoder of Cheney was in the city yesterday attending to some business affairs.

Jerry Simpson took breakfast in the city yesterday morning while on his way home to Medicine Lodge.

Miss Mary Bird will leave Thursday for North Dakota, where she has a position in the government schools.

Mr. C. L. Ogden of Fredonia was in the city yesterday and stopped at the Manhattan hotel during his stay here.

Mr. Fred Barnes, cashier in the Santa Fe freight office, left yesterday to take a temporary position in the office at Guthrie.

Mrs. Chas. Beck returned yesterday from Uniontown, Iowa, where she has been visiting her grandparents for the past few weeks.

Miss Sophia Getto left over the Santa Fe yesterday afternoon for Salt Lake City, where she will visit with friends for a few months.

Miss Lizzie Kinder has returned to her home at Woodward, O. T. She has been visiting her friends, Mr. and Mrs. Asholtz, of this city.

The fire department was called to 702 East Douglas avenue yesterday morning at 9 o'clock to extinguish a small blaze which started in the roof. Very little damage was done. The polling place of the Third of the Taint was being held in the building.

DANGER IN A DOG'S KISS

Persons who kiss their pet dogs and let them lick their faces, may be interested in a case reported from Paris by the correspondent of the London Daily News. Miss Santastore is the daughter of the former chef of Queen Isabella, who keeps a well-known restaurant where one can have Spanish and Neapolitan dishes. The only daughter, aged twenty, had a bull terrier named Bob, of whom she was very fond. Bob two months ago fell ill. His mistress nursed him and lavished caresses on him. He showed his gratitude in licking her hands and face. He then ran away from her, and howled if she went near him. The poor brute grew worse. He bit some days ago two customers and a man who was furnishing coal. They were on the Pacific institute, and seemed to be doing well, but Miss Santastore, whose foot he attempted to bite, fell ill. She thought she had a cold, and kept saying: "Bob did not bite me." Certainly his teeth had not pierced the skin. Later, however, she supervised, and then convulsions. The third day was quiet till just toward the end, when convulsion supervened suddenly and she died. No trace of a bite could be found upon her foot or any other part of her body. The dog's saliva, it is thought, must have been absorbed as he licked her face.

Sheffield, Eng., Nov. 1.—The returns of the exports of culchery from Sheffield to the United States show that the amount was only \$9,000 for the last quarter, as compared with \$10,000 for the same quarter of 1896. This is the worst showing made of the culchery exports of this city for seven years past. The exports of steel, however, have increased 25 per cent, the total exports of Sheffield have fallen from \$600,000 to \$410,000.

RAILWAY SAFETY APPLIANCES

Trainsmen Will Appear Before the Interstate Commerce Commission.

Peoria, Ill., Nov. 2.—The law which passed Congress March 1893, and was signed by President Harrison, requiring all railroads in the United States to equip cars with automatic couplers and power brakes, now has effect January 1, 1898, nearly five years after passage. It is stated at headquarters of the rail-

OFF FOR KLONDIKE

CYCLIST STARTS OUT TO MAKE THE TRIP ON HIS WHEEL.

Old Soldier Named Briegle Leaves Chicago for the Land of Gold Via El Paso, Los Angeles, San Francisco and Seattle—His Wheel and Outfit Weigh Sixty Pounds—Government Word of Reindeer in Alaska to be Put at Work Hauling Supplies to Dawson City to Relieve the Famined Situation in the Klondike.

Chicago, Nov. 2.—Cyclist J. A. Briegle left the corner of Washington and LaSalle streets at 9 o'clock this morning, bound for Klondike via El Paso, Los Angeles, Frisco and Seattle. A large crowd congregated to watch the man start on his long journey. His wheel, with outfit, weighs sixty pounds. Briegle is an honorably discharged United States soldier and is well acquainted with the country through which he will have to pedal after leaving St. Louis. The traveler expects to reach Seattle about the middle of February.

TO RELIEVE FAMINE.

Chicago, Nov. 2.—The threatened famine in the Yukon Valley will be relieved, Dr. Sheldon Jackson, enroute from the Klondike to Washington says the recent order of Secretary Alger to Lieutenant Colonel Randall, U. S. A., in command of the military reservation at St. Michaels, Alaska, directing him to use the reindeer for hauling food to the miners, will save much suffering. Dr. Jackson has in the herd 200 head of reindeer trained to harness. He also has two Lapps and several Eskimos experienced in driving reindeer, whom he can turn over to Colonel Randall. He further states that the present emergency emphasizes the urgent need of procuring trained reindeer in larger numbers—that the mines of Alaska are so peculiarly situated that they cannot be supplied with a continuous and adequate food supply until reindeer transportation is systematically arranged.

ONE WHO STRUCK IT RICH.

Chicago, Nov. 2.—A special to the Times-Herald from Belton, Texas, says: An English syndicate has purchased Frank Phycator's gold mines in Alaska, paying \$1,000,000 for three claims on Eldorado. The syndicate pays \$30,000 down and the balance of \$970,000 at the end of one year.

Physician went up to Alaska in February, 1896, and cleaned up \$66,000 in seventy days from claim No. 2 on Eldorado creek. Since his return to his home near this city, he has purchased homes for all his relatives and paid off mortgages for others spending about \$5,000 in this way. He does not like the climate of Alaska and therefore declined to sell.

UNION PACIFIC FIRST MORTGAGES

Follows the Second Mortgage. Into the Reorganization Committee's Hands.

Omaha, Neb., Nov. 2.—The reorganization committee of the Union Pacific, which yesterday bought the government lien, which was the second mortgage on the property of the Union Pacific, today purchased the first mortgage on the same property, by which the construction bonds were secured. The price paid for the mortgage was the amount named as the minimum bid to be accepted, \$68,435. The property was bought, as was the second mortgage yesterday, in the name of Louis Fitzgerald and Alvin W. Kreech as purchasing trustees.

The sale today, if possible, more uninteresting than that of yesterday, not over forty people being present at any time. It was 11 o'clock to the minute when Master in Chancery Cornish mounted the stone step in front of the Ninth street entrance to the Union Pacific freight depot and began reading the notice of the sale and the description of the property to be sold. This consumed just thirty-five minutes and he then read the same notice of protest from the Union Pacific, Denver and Gulf road against the sale of two miles of track of the Cheyenne and Northern road, which is claimed by the Union Pacific, Denver and Gulf and the Union Pacific, that he read yesterday. He announced that the purchaser must take the property subject to the protest and asked for bids for the property, the description of which he had just read.

General Louis Fitzgerald repeated his performance of yesterday, by coming out of the hallway and saying:

"I bid for the property fifty millions, six hundred and thirty-seven thousand, four hundred and thirty-five dollars."

Master in Chancery Cornish repeated the amount, adding:

"Are there any other bidders? Does anybody else desire to bid?"

Apparently nobody cared to avail himself of the privilege and Mr. Cornish continued:

"Inasmuch as the bid of Louis Fitzgerald and Alvin W. Kreech, purchasing trustees, is the highest bid and the only bid, I declare the property sold for the sum of fifty millions, six hundred and thirty-seven thousand, four hundred and thirty-five dollars. This concluded the sale and as there is no other property to be sold, the thing is finished."

Master in Chancery Cornish has been prompt in filing the report of his official action in connection with the sale of the Union Pacific. The report of the sale made yesterday was filed this morning in the office of the clerk of the United States court.

The report cites the order of sale issued by Judge Sanborn and in accordance with the provisions of that order mentions that representatives of the purchasers deposited with the master within the proper time a certified check for \$2,000,000 as a guarantee on the bid for the property and another certified check for \$1,364,535 to cover the sale of the sinking fund bonds.

The master says that when the property was offered for sale Louis Fitzgerald and Alvin W. Kreech, representing the purchasers, bid \$5,000,000 for the railroad and its franchises and \$1,364,535 for the sinking fund bonds. That these bids were the only ones offered and were accepted.

The fee which the master who made the sales of yesterday and today will receive for his work is generally estimated at \$100,000. It may be over that amount, and it may be something under it, but it is generally conceded that it will be close to that figure in either direction.

TOUGH ON EXPERTS

ILLINOIS SUPREME COURT DECIDES AGAINST THEM.

Dr. Dixon, Called as an Expert, Held That His Expert Opinion was Not Only the Subject of a Property Right But That It Was Peculiarly and Solely His Own Property—The Lower Court Held Otherwise and Fined the Doctor for Contempt of Court—Supreme Court Sustains the Ruling.

FREIGHT MEN IN SESSION

Transcontinental Lines Holding a Three Days Meeting in Chicago.

Chicago, Nov. 2.—The Transcontinental freight bureau began a three day's meeting here today. Today's session was devoted to reviewing complaints and adjustment of percentages. It is probable that before the session is concluded a modification of the present classification will be made. The roads represented at the meeting are the Canadian Pacific, the Southern Pacific, the Union Pacific, the Santa Fe, the Texas and Pacific, the Chicago, Burlington and Quincy and the Rock Island.

Chicago, Nov. 2.—A positive and final refusal has been given by the Soo road to the request that it become a party to the agreement to withdraw excessive commissions on north Pacific coast business. Before it will agree to any such proposition, the Soo declares, the other roads will have to concede it the differentials it has been demanding for the last two years on both east and west-bound business. Its competitors are equally determined that it shall never be allowed these differentials. The executive committee of the Western Passenger association this afternoon decided to ignore the Soo's action so far as all business other than north Pacific coast, Montana and eastern Washington business is concerned, and a circular will be issued ordering the withdrawal of excessive commissions on California, Utah and Colorado business. An effort was made to have Montana business included in the agreement, but it was found impracticable to carry out this idea. Montana traffic is so intimately connected with north Pacific coast business that the two cannot very well be separated.

CURIOUS FOREIGN STORIES

A Sewer for a Promenade.

A whole hamlet of human beings, in England, use a sewer as a promenade in the Channel district. The land lies below the water level, and the huge sewer which brings the sewage of London down on the way to Abbey Mills lies on the ground and towers above like a railway embankment. It has been leveled on the top and called in and the people of Channelsea make it their promenade.

A Tiny Book.

Italy has produced the smallest book in the world, volume of 108 pages, measuring 10 millimetres by 6, or five-twelfths by one-quarter of an inch. Each page contains 100 lines, and from 100 to 100 letters. The text is an unpublished letter written by Galileo in 1615 to Mme. Christine, of Lorraine. The printers are the Brothers Salmin, of Padua, who in 1870 produced the microscopic edition of Dante's "Divine Comedy," 38 by 22 millimetres in size, with 31 lines to the page.

Quinine and the Bible.

Many people make invidious remarks about the export of beer and Bibles, and say that the Bible is a very familiar saying in England, yet to say quinine and the Bible would be to utter a truism. The natives who disseminate religious literature receive for their reward a supply of quinine at cost price. Now, quinine is replacing ginseng in popular favor in Korea, and it is sold at a profit by these Bible and tract distributing natives.

A Novel Lift.

The latest attraction at the Magazines du Louvre, Paris, is a carpet revolving over rollers in a gently inclined plane, serving as a lift instead of a step on the carpet, and without stirring a foot are transported to the first floor of the building. The movement is gentle and regular; those who place a hand on the banisters for support find the velvet cushion revolving at the same speed as the carpet beneath their feet. As may be supposed, it is an endless source of amusement to the many who visit the shop at this season either to make the journey itself or to watch others gliding one after another, like so many lay figures.

Electricity on the New Spanish Dock.

The power for emptying the pontoons on the gigantic graving dock constructed in England for Spain is transmitted from the engine to the pumps by electrical means. In each of the two side walls there is an electrical generating station, in which two Dyne dynamos are directly coupled to compound vertical engines. Ten electric motors are provided, five in each wall, with starting boxes located in the valve rooms. The motor shafts are vertical, running down to the centrifugal pumps, which revolve in a horizontal plane near the bottom of the pontoons. The pumps are capable of discharging 6,000 tons of water per hour against the variable head, which is dependent on the depth of immersion.

BACTERIOPHOBIA UP TO DATE.

In these days of microbes and contagion all the latest and new set of sanitary regulations for general guidance ought to be jumbled up into the form of an act and shoved up before the Viceroy's Council in order that it may become a law. A few suggestions like the following might help the Deputy Legal Remembrancer:

Every hotel, hostel, bar, or restaurant keeper must set apart a special knife, fork, spoon, plate, glass and table for each customer, and the customer's name must be inscribed.

No two persons must be supplied with milk from the same cow.

No two men may kiss the same girl.

Small boys must not wear jackets that their elders have outgrown.

It is a criminal offense to cut down parental pants to fit the offspring.

No person shall sit on another person's lap on pain of death—Indian Planter's Gazette.

San Francisco, Nov. 1.—The British ship Marston, which left Tacoma about three months ago for Delagoa Bay, South Africa, went ashore at the entrance of Lorenzo Marques on Sunday. It was expected, however, that she would be floated at the next high tide. The vessel was loaded with lumber.

THERE IS A CLASS OF PEOPLE

Who are injured by the use of coffee. Recently there has been placed in the grocery stores a new preparation called GRAIN-O-COFFEE. It is a mixture of coffee and grain. It does not cost over 4c as much. Children may drink it with safety at the next high tide. Try it. Ask for GRAIN-O-COFFEE.
